Last Page

Goal: The goal for this portion of the tutorial.

Below is a sample image. Images must be uploaded into Plone (usually into the Images subdirectory of the tutorial you're working on) before you can link to them. To insert an image, you can switch to the Contents tab, select Image from the drop–down menu, and click the "add new item" button.

Note that the last page of the tutorial does not have a "Next" link.
